

Shamsher Ali

AI Engineer and Automation Specialist

✉ shamsherali.tech.ai@gmail.com 📞 wtp: +923058840463 🏠 Sahiwal, Pakistan

Professional Summary

I'm an AI Engineer and Automation Specialist focused on building agentic workflows that handle complex tasks autonomously. I specialize in architecting intelligent pipelines that replace manual processes with scalable, AI-driven systems. My background in full-stack development and DevOps allows me to take these AI solutions from initial design all the way to a reliable production environment. I'm passionate about using these tools to bridge the gap between technical infrastructure and real-world operational efficiency.

Skills

Core Competencies

- Adaptability, Problem-Solving, and Decision-Making, Management & Organization with Attention to Detail.
- Excellent Communication, Empathy with Stakeholders.
- Confidence, Professionalism, and Team Collaboration.

Core Skills and Tool:

- AI Automation: n8n, Zapier, Make, Claude AI, supabase, GitHub, Workflow orchestration, Error troubleshooting, Secure pipeline design, Data mapping, API integration
- AI Engineering: Python, Pandas, NumPy, TensorFlow, scikit-learner and Hugging Face Transformers, JavaScript, RAG architectures, LLM integration (Ollama, Llama), Agentic workflows, Prompt engineering, Model integration, Scalable system design.
- Intelligent Solutions: End-to-end automation delivery, AI-driven process optimization, and enterprise-ready workflow innovation.

Other Skills:

- UI/UX designer, Web Development, Data Analysis, DevOps, WordPress, Collaboration Tools, Freelance Platforms.

Experience

AI engineer and Automation specialist

Jan 2026 - Present

Freelancing + YouTube content creator

- Designed and implemented AI-driven automation workflows using n8n, Zapier, Make, Supabase, Python, and JavaScript, delivering secure, scalable, and production-ready solutions.
- Engineered intelligent systems with RAG architectures, LLM integration, agentic workflows, and prompt engineering to optimize enterprise processes and enhance automation efficiency.

Teaching & Freelancing

Jan 2024 - Present

- **Data Analysis:** Taught learners and delivered freelance project experience, applying analytical methods to solve practical problems.
- **UI/UX Designer and Web Development:** Provided instruction and executed freelance projects, building functional solutions and guiding beginners through development workflows.

Teacher (mathematics & computer Science)

Jan 2023 - Present

on-site & remote

- Tutored students from grade 5 to 12 in Mathematics and improving conceptual understanding and exam performance through personalized learning plans.
- Taught Computer Science fundamentals, programming, and web development, helping students build strong technical foundations and apply concepts in practical projects.

Education

BSCS (Bachelor of Science in Computer Science) – 16 year of education

Aug 2019 – Aug 2023

UOS, Punjab, Pakistan

- among the top 5% of the batch.
- **Key Courses:** Programming, Data Structures & Algorithms, Computing, Data Analysis, with advanced focus on AI Engineering and Automation.

Projects

- **AI Agent for Doctor Appointment Scheduling** – Developed an intelligent agent leveraging LLM integration and workflow automation to manage patient appointment requests, streamline scheduling, and enhance healthcare accessibility through secure, scalable pipelines.
- **Social Media Auto Content Generator** – Developed an automation system to create, schedule, and publish content across platforms, enhancing digital presence and reducing manual workload.
- **Priority-Based Dynamic Email Manager** – Automated personalized email workflows to categorize and prioritize communication for admins, CEOs, and clients, ensuring timely delivery and streamlined inbox management.
- **Cold Mail Automation** – Designed intelligent outreach pipelines to generate, schedule, and track cold emails, boosting lead engagement and reducing manual effort.

Interests and Personal Pursuits

- **Academic and Technical Growth:** Reading (Quran as favorite), analytics, teaching, coding, and problem-solving.
- **Personal Engagements:** Sports (cricket) and traveling, fostering balance and adaptability.

Contact via WhatsApp

- Due to network issues, normal calls may not be possible. Please contact me on WhatsApp instead.
